Currency fluctuations may affect the value of overseas investments. When investing in a fund denominated in a foreign currency, your performance may also be affected by currency fluctuations. In emerging markets, the risks can be greater than in developed markets. Funds with investments in derivative instruments entail specific risks that may increase the risk profile of the fund and are more fully described in the fund's prospectus. Funds that invest in a specific sector or geographical area may have more volatile returns than a more diversified fund. No shares of the fund may be directly or indirectly offered or sold to national or residents of the United States of America. Shares of the fund are not available for distribution in all jurisdictions and prospective investors should confirm availability with their local Franklin Templeton Investments representative before making any plans to invest.
