

## Templeton Emerging Markets Dynamic Income Fund

**Class A (Qdis) USD • ISIN LU0608807946** • A sub-fund of Franklin Templeton Investment Funds  
The management company is Franklin Templeton International Services S.à r.l.

### Objectives and Investment Policy

Templeton Emerging Markets Dynamic Income Fund (the “**Fund**”) investment objective is to seek to maximise income and growth of capital (total return).

#### Investment Policy

The Fund mainly invests in equities and bonds (minimum 25% of assets for each asset class) from companies and government issuers that are located in, or derive significant business from emerging market countries, including Mainland China. Some of the bond investments may be below investment grade.

These investments may include convertible securities. To a lesser extent, the Fund may invest in asset- and mortgage-backed securities, and securities in default.

**Derivatives and techniques** The Fund may use derivatives for reducing risks (hedging) and costs, and to generate additional income or growth.

**SFDR category** Article 6 (does not promote environmental and/or social characteristics or have a sustainable investment objective under EU regulations).

**Base currency** US dollar (USD).

**Benchmark(s)** 50% MSCI EM-NR and 50% JPMorgan GBI-EM Global Diversified Index. Used for performance comparison only.

The Fund is actively managed and may deviate materially from that of the benchmark(s).

#### Buying and selling shares

You may normally buy or sell shares on any day the New York Stock Exchange is open for business.

#### Intended retail investor

Investors who understand the risks of the Fund and plan to invest for at least 5 years. The Fund may appeal to investors who:

- are looking for a combination of income and investment growth
- are interested in exposure to a mixed asset allocation as part of a diversified portfolio
- have a medium to high risk profile and can tolerate significant short-term changes in the share price

**Product availability** The Fund is available to all investors with at least basic investment knowledge, through a wide range of distribution channels, with or without the need for advice.

#### Terms to Understand

**bonds, below investment grade:** Bonds represent an obligation to repay a debt, along with interest. Below investment grade bonds generally pay higher interest rates but are considered less likely to make all scheduled payments or repay the initial debt.

**convertible securities:** Bonds that offer the option or the obligation of receiving repayment of principal either in cash or shares in the company.

**derivatives:** Financial instruments whose value is linked to one or more rates, indexes, share prices or other values.

**emerging markets:** Markets of less economically developed nations, such as some nations in Asia, Africa, Eastern Europe and Latin America.

**equities:** Securities that represent partial ownership of a company.

**Share Class Currency:** USD

**Treatment of Income:** For the distribution share class shown in this document, dividend income is distributed to shareholders.

### Risk and Reward Profile

#### What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behavior.

Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean risk free.

#### Why is the Fund in this specific category?

The Fund invests mainly in debt and equity securities issued by entities located in emerging countries. Such securities have historically been subject to price movements, generally due to interest rates, market factors or movements in the equity and bond markets. As a result, the performance of the Fund can fluctuate considerably over time.

#### Risks materially relevant not adequately captured by the indicator:

**Chinese Market risk:** In addition to typical risks linked to Emerging Markets, investments in China are subject to economic, political, tax and operational risks specific to the Chinese Market. Please also refer to the prospectus for China QFII risk, Bond Connect risk and Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect risk.

**Credit risk:** the risk of loss arising from default that may occur if an issuer fails to make principal or interest payments when due. This risk is higher if the Fund holds low-rated, sub-investment-grade securities.

**Derivative Instruments risk:** the risk of loss in an instrument where a small change in the value of the underlying investment may have a larger impact on the value of such instrument. Derivatives may involve additional liquidity, credit and counterparty risks.

**Emerging markets risk:** the risk related to investing in countries that have less developed political, economic, legal and regulatory systems, and that may be impacted by political/economic instability, lack of liquidity or transparency, or safekeeping issues.

**Foreign Currency risk:** the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations.

**Liquidity risk:** the risk that arises when adverse market conditions affect the ability to sell assets when necessary. Such risk may be triggered by (but not limited to) unexpected events such as environmental disasters or pandemics. Reduced liquidity may have a negative impact on the price of the assets.

For a full discussion of all the risks applicable to this Fund, please refer to the “Risk Considerations” section of the current prospectus of Franklin Templeton Investment Funds.

### Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
