

# **Key Investor Information**

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

# FTF ClearBridge US Equity Income Fund Class W (inc) GBP • ISIN GB00BMF4TR04 • A sub-fund of Franklin Templeton Funds

The management company is Franklin Templeton Fund Management Limited which is referred to in this document as the authorised corporate director or "ACD".

For the purposes of the UK Sustainability Disclosure Requirements ("UK SDR"), a sustainable investment label helps investors find funds that have a specific sustainability objective. This Fund does not have a UK sustainable investment label because it does not have a specific sustainability objective.

# **Objectives and Investment Policy**

FTF ClearBridge US Equity Income Fund (the "Fund") aims to generate income and increase in value through investment growth, over periods of five years or more after all fees and costs are deducted.

There is no guarantee that the Fund will achieve its objective over this or any other time period. Capital invested is at risk and you may get back less thán you paid in.

#### **Core investment**

The Fund invests at least 70% of its assets in shares of US companies.

# Other investments

The Fund may also invest in:

- preference securities (shares where dividends are paid out in advance of dividends due to other shares in the company);
- · convertible bonds (a type of corporate bond which can be exchanged for shares in the same organisation);
- · debt securities of any quality;
- · cash and cash equivalents;
- · money-market instruments; and
- other collective investment schemes (which may include collective investment schemes operated by the ACD or any of its associates). The Fund may not invest more than 10% in other collective investment schemes.

Although the Investment Manager does not typically expect to use derivatives on a regular basis, the Fund can use derivatives for efficient portfolio management (managing the Fund in a way that is designed to reduce risk or cost and/or generate extra income or growth). However, the Fund can introduce more speculative use of derivatives in the future on 60 days' notice to investors. Derivatives are financial contracts whose value is linked to the price of another asset, e.g. indices, interest rates, share prices or currencies.

# Geographic locations (where we invest)

The Fund focuses on investments in the US. No more than 20% of the Fund's assets can be invested in investments issued by non-US companies.

#### How we select investments (investment strategy)

This Fund is actively managed, which means that the Investment Manager does not copy a benchmark when selecting investments for the Fund.

The Fund typically invests in shares of around 40 – 60 companies of any sector or industry. The Investment Manager seeks to select investments in companies which it believes may maintain or increase dividends or income

distributions over the longer term. In particular, the Investment Manager seeks to select companies which it believes are undervalued (whether in respect of assets or earning power) by the rest of the market. Typically, the Investment Manager seeks to invest in companies with a market capitalisation of US\$ 10 billion or above, although the Investment Manager has the flexibility to invest in companies with a smaller market capitalisation if considered appropriate.

# ESG (environmental, social, and governance) factors

In selecting the Fund's investments, the Investment Manager assesses prospective investments against various ESG factors, depending on the sector of the investee company. These ESG factors are used to inform the Investment Manager's wider assessment of the value and financial attractiveness of each potential investment and exposures are adjusted accordingly. The Investment Manager may exclude investments depending on their assessment of ESG factors. In addition, the Investment Manager applies automatic exclusions for investments in certain sectors. For more detailed information about how the Investment Manager considers ESG, and a list of exclusions, please see the Fund's 'UK SDR: Consumer Facing Disclosures' available at www.franklintempleton.co.uk/CFD\_33772 and the investment objective and policy in the prospectus, available at www.franklintempleton.co.uk/fffdocuments in the "Additional Documents" tab. tab.

#### Additional Information

- The Fund's performance can be compared to the S&P 500 Index, which reflects the performance of investments in similar assets to those in which the Fund invests. For hedged share classes that attempt to mitigate the impact of changes in foreign exchange rates (ending "H2"), we show performance of the hedged version of the comparable index.
- You may request the sale of your shares in the Fund on any UK business

**Recommendation**: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

# **Terms to Understand**

**Debt securities:** securities representing the issuer's obligation to repay a loan at a specified date and to pay interest.

Collective investment schemes: other investment funds, like the Fund. Shares of companies (equities): securities that represent an ownership stake in a company.

For the income share class shown in this document, dividend income is distributed to investors.

# **Risk and Reward Profile**

Lower risk Potentially lower rewards

Higher risk Potentially higher rewards

### What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behavior.

Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean risk free.

### Why is the Fund in this specific category?

The Fund does not offer any capital guarantee or protection and you may not get back the amount invested. The Fund is in its risk/reward category because investments in shares of US companies from various sectors have historically been subject to relatively large fluctuations in value. As a result, the performance of the Fund can fluctuate considerably over time.

# Risks materially relevant not adequately captured by the indicator:

Concentration risk: the risk that arises when a fund invests in relatively few holdings, few sectors or a restricted geographic area. Performance may be more volatile than a fund with a greater number of securities.

Single Country/Region Risk: This fund invests primarily in the United States, which means that it is more sensitive to local economic, market, political or regulatory events in the United States, and will be more affected by these events than other funds that invest in a broader range of regions. Equity risk: prices of equities may be affected by factors such as economic, political, market, and issuer-specific changes. Such changes may adversely affect the value of the equities regardless of company-

specific performance.

Foreign currency risk: the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations.

Liquidity risk: the risk that arises when adverse market conditions affect the ability to sell assets when necessary. Such risk may be triggered by (but not limited to) unexpected events such as environmental disasters or pandemics. Reduced liquidity may have a negative impact on the price of the assets.

the assets. For a full discussion of all the risks applicable to this Fund, please refer to the "Risk Factors" section of the current prospectus of Franklin Templeton Funds.

# **Charges**

# One-off charges taken before or after you invest

Entry charge	Not applicable	
Exit charge	Not applicable	
<b>T</b> ( ) ( ) ( )		

This is the maximum that might be taken out of your money before it is invested (in the case of the entry charge) or before money is paid out to you when you sell shares in the Fund (in the case of the exit charge).

Charges taken from the Fund over a year

Ongoing charges	0.77%
Charges taken from the	Fund under certain specific conditions
Performance fee	Not applicable

The ongoing charges figure is based on the expenses for the Fund for the year to December 2024 and it may vary from year to year. It is an estimate of the charges made to the Fund over a year to cover the costs of managing, operating, and distributing the Fund. Charges are deducted from the value of the assets held by the Fund and are reflected in the daily price that is used to buy and sell shares in the Fund. These charges reduce the percential growth of your investment and/or the income paid from it. For that is used to buy and sell shares in the Fund. These charges reduce the potential growth of your investment and/or the income paid from it. For example, a Fund with an ongoing charges figure of 0.5%, means that an investor would pay £5 in charges over the course of a year for every £1,000 they had invested. Please note that the ongoing charge excludes some other costs (such as those incurred by the Fund when buying and selling securities) so total costs paid by investors each year may be slightly higher than the ongoing charges figure. than the ongoing charges figure.

For detailed information about charges, please refer to the "Fees and Charges" section of the current prospectus of Franklin Templeton Funds and the Fund's annual report for details on the exact charges made.

#### **Past Performance**

TF ClearBridge US Equity Income Fund Class W (inc) GBP S&P 500 Index (GBP)

- Past performance is not a guide to future performance.
- The past performance shown here includes all the ongoing charges.
- Past performance is calculated in GBP.
- The Fund was launched on 23 September 2022 to receive the assets of FTF ClearBridge US Equity Income Fund, which was a sub-fund of Franklin Templeton Funds II - another UK UCITS Scheme managed by the ACD (the "merging fund"), which was very similar to the Fund. More information about the merger is available on our website. Because of the similarities between the merging fund and the Fund, we have used the past performance of Class X Inc. GBP in the merging fund for the period from the start of the performance chart up to the launch date of the Fund.

#### **Practical Information**

- The Depositary of Franklin Templeton Funds is The Bank of New York Mellon (International) Limited.
- You can obtain further information about the Fund, copies of its prospectus and the latest annual and semi-annual reports of Franklin Templeton Funds from the website www.franklintempleton.co.uk or free of charge from Franklin Templeton Fund Management Limited, Cannon Place, 78 Cannon Street, London EC4N 6HL or your financial adviser. These documents are each available in English.
