The management company is Franklin Templeton International Services S.à r.l.

Objectives and Investment Policy

Templeton Growth (Euro) Fund (the “Fund”) investment objective is to seek long-term investment growth, through growth of capital.

Investment Policy

The Fund mainly invests in equities of companies of any market capitalisation. These investments may be from anywhere in the world, including emerging markets.

These investments may include depositary receipts. To a lesser extent, the Fund may invest in corporate and government bonds.

Derivatives and techniques The Fund may use derivatives for reducing risks (hedging) and costs, and to generate additional income or growth (in accordance with the risk profile of the Fund).

Strategy The investment manager uses Fundamental analysis to select companies that appear to be undervalued, based on such factors as companies’ financial condition and expected long-term earnings, and have above-average potential for appreciation.

SFDR category Article 8 (promotes environmental and/or social characteristics under EU regulations).

The investment manager applies a proprietary rating methodology using various ESG criteria to assess long-term opportunities and risks. The Fund favours companies with a high or improving profile and excludes or restricts investments in certain industries that are harmful to the environment or society, such as thermal coal, weapons and tobacco. The investment manager engages in dialogue with companies concerning ESG issues and weighs ESG considerations when voting at company shareholder meetings.
