

## Franklin Shariah Systematic Global Equity Fund

**Class W (acc) GBP-H1 • ISIN LU3349964174 •** A sub-fund of Franklin Templeton Shariah Funds  
The management company is Franklin Templeton International Services S.à r.l.

### Objectives and Investment Policy

Franklin Shariah Systematic Global Equity Fund (the “Fund”) investment objective is to seek long-term investment growth, through growth of capital.

#### Investment Policy

The Fund mainly invests in Shariah-compliant equity and equity-related securities that are constituents of the MSCI ACWI Islamic M-Series Index (USD) (the “Index”). The Index includes securities from global markets, including Emerging Markets.

The Fund uses a quantitative investment approach, meaning it selects investments based on data and models. The strategy employs a proprietary quantitative selection process using a multi-factor model to assign a score based on certain factors like quality, value, momentum and alternatives factors. All investment decisions are made by the Investment Manager based on the scores assigned by its proprietary model.

**Derivatives and techniques** The Fund may use derivatives for reducing risks (hedging) and costs, and to generate additional income or growth.

**SFDR category** Article 6 (does not promote environmental and/or social characteristics or have a sustainable investment objective under EU regulations).

**Base currency** US dollar (USD).

**Benchmark(s)** MSCI ACWI Islamic M-Series Index (USD). Used for performance comparison and as a universe to select investments. Although the Investment Manager is constrained by the benchmark in its portfolio positioning/composition, the Fund is not obliged to invest in all constituents of the Index or replicate the weightings of securities within the Index.

The Fund is actively managed.

#### Buying and selling shares

You may normally buy or sell shares on any day the New York Stock Exchange is open for business.

#### Intended retail investor

Investors who understand the risks of the Fund and plan to invest for at least 3 years. The Fund may appeal to investors who:

- are looking for long-term investment growth
- are interested in exposure to Shariah-compliant equity markets as part of a diversified portfolio
- have a medium risk profile and can tolerate moderate short-term changes in the share price

**Product availability** The Fund is available to all investors with at least basic investment knowledge, through a wide range of distribution channels, with or without the need for advice.

#### Terms to Understand

**derivatives:** Financial instruments whose value is linked to one or more rates, indexes, share prices or other values.

**emerging markets:** Markets of less economically developed nations, such as some nations in Asia, Africa, Eastern Europe and Latin America.

**equities:** Securities that represent partial ownership of a company.

**Share Class Currency:** GBP

**Treatment of Income:** The income received from the Fund's investments is accumulated with the result of increasing the value of the shares.

### Risk and Reward Profile

#### What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behavior.

Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean risk free.

#### Why is the Fund in this specific category?

The Fund mainly invests in Shariah-compliant equity and equity-related securities that are constituents of the MSCI ACWI Islamic M-Series Index (USD) (the “Index”). As a result, the performance of the Fund can fluctuate significantly over relatively short time periods.

#### Risks materially relevant not adequately captured by the indicator:

**Derivative Instruments risk:** the risk of loss in an instrument where a small change in the value of the underlying investment may have a larger impact on the value of such instrument. Derivatives may involve additional liquidity, credit and counterparty risks.

**Foreign Currency risk:** the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations.

**Model risk:** Potential loss as a consequence of decisions that could be principally based on the output of internal models, as a result of errors in the development, implementation or use of such models. Materialisation of the model risk may be detrimental to fund performance.

**Shariah compliance risk:** the risk that the restriction to invest only in Shariah-compliant securities may place the Fund at a comparative disadvantage vs. funds that do not have this restriction. Returns to shareholders may also be reduced due to payments to Shariah approved charities to “purify” dividends.

For a full description of all the risks applicable to this Fund, please refer to the section “Risk Considerations” of the current prospectus of Franklin Templeton Shariah Funds.

### Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

#### One-off charges taken before or after you invest
