Objectives and Investment Policy

Franklin Income Fund (the “**Fund**”) investment objective is to seek to maximise income and growth of capital (total return).

Investment Policy

The Fund mainly invests in equities and corporate and government bonds of US issuers. Some of the bond investments may be below investment grade.

These investments may include convertible securities and to a lesser extent the Fund may invest in depositary receipts.

Derivatives and techniques The Fund may use derivatives for reducing risks (hedging) and costs, and to generate additional income or growth.

For each asset class, the investment manager then selects securities that appear to offer both attractive income and total return potential.

Risk and Reward Profile

What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behavior.

Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean risk free.

Why is the Fund in this specific category?

The Fund invests mainly in a diversified portfolio of U.S. equity, equity-related and debt securities. Such securities have historically been subject to price movements that may occur suddenly due to equity market- and bond market-specific factors. As a result, the performance of the Fund can fluctuate considerably over time.

Risks materially relevant not adequately captured by the indicator:

Credit risk: the risk of loss arising from default that may occur if an issuer fails to make principal or interest payments when due. This risk is higher if the Fund holds low-rated, sub-investment-grade securities.

Foreign Currency risk: the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations. For a full discussion of all the risks applicable to this Fund, please refer to the “Risk Considerations” section of the current prospectus of Franklin Templeton Investment Funds.
