

## FTGF Martin Currie European Unconstrained Fund

Class A EUR ACC • ISIN IE00BGNBWQ13

**A subfund of:** Franklin Templeton Global Funds plc (the "Company")

**Managed by:** Franklin Templeton International Services S.à r.l., part of the Franklin Templeton group of companies.

### Objectives and Investment Policy

#### Objective

The investment objective of The Fund is to provide long-term capital appreciation through investment in a concentrated portfolio comprised primarily of European equities.

#### Investment Policy

- The Fund will invest at least 80% of its assets in shares of companies located or listed in Europe or, that conduct the predominant part of their economic activity in Europe. Such investment may be directly in such shares or indirectly via derivatives (financial instruments whose value is derived from the value of other assets).
- The investment manager seeks to identify shares of companies that have the potential to generate or sustain a high return on invested capital; have the potential to provide an attractive growth profile and/or cash flow generation over the long term; and are expected to have supportive accounting practices and environmental, social and governance practices.
- To determine whether a company meets these criteria, the investment manager analyses the company's positioning within its industry and the dynamics of that industry and makes financial projections for the company. These projections may include forecasts of return on invested capital, cash flow growth, cash flow generation and estimated weighted average cost of capital.
- The Fund will typically invest in 20 to 40 companies, with a typical initial investment in a company being from 2-5% of the fund's value.
- The Fund's investments may be denominated in currencies other than the base currency (euro), the investment manager will not attempt to hedge

currency exposure back to the base currency.

- The Fund may invest in derivatives for efficient portfolio management purposes (i.e. for hedging, to reduce risks or costs, or to increase capital or income returns).

• This is an Article 8 fund under the EU Sustainable Finance Disclosure Regulation.

• **Benchmark:** MSCI Europe (Net Dividends) Index

• **Manager's Discretion:** The Fund is actively managed, and the investment manager is not constrained by the benchmark. The Fund uses the benchmark for performance comparison purposes. While many of the fund's investments will be components of the benchmark, the weightings of the fund's holdings may differ materially from the weightings in the benchmark. The Fund will also invest in securities that are not included in the benchmark. The Fund's percentage exposures to sectors and industries may differ materially from those of the benchmark.

**Fund's Base Currency:** EUR

**Share Class Currency:** EUR

• **Transaction Costs:** The Fund bears costs in buying and selling investments, which may have a material impact on the fund's performance.

**Dealing Frequency:** You can buy, sell and switch your shares on each day that the New York Stock Exchange is open for business.

**Minimum Initial Investment:** For this share class the minimum initial investment is EUR 1,000.

**Treatment of Income:** Income and gains from the fund's investments are not paid but instead are reflected in the fund's share price.

### Risk and Reward Profile

The indicator is based on the volatility of the returns (past performance) of the reported share class (calculated on a 5 year rolling return basis). Where a share class is inactive / has less than 5 years of returns, the returns of a representative benchmark are used.

There is no guarantee that the fund will remain in the indicator category shown above and the categorisation of the fund may shift over time. Historical data, which is used in calculating the indicator, may not be a reliable indicator of the future risk profile of this fund.

The lowest category does not mean a risk-free investment.

The fund does not offer any capital guarantee or protection and you may not get back the amount invested.

The fund invests in a concentrated manner (the fund holds fewer investments than many other funds) in shares of companies from various European countries and sectors. As a result, the performance of the Fund can fluctuate significantly over relatively short time periods.

**The fund is subject to the following risks which are materially relevant but may not be adequately captured by the indicator:**

**Concentrated fund:** The fund invests in fewer companies than other funds

which invest in shares usually do. This means that the fund does not spread its risk as widely as other funds and will therefore be affected more if an individual company has significant losses.

**Fund currency:** Changes in exchange rates between the currencies of investments held by the fund and the fund's base currency may negatively affect the value of an investment and any income received from it.

**Fund operations:** The fund is subject to the risk of loss resulting from inadequate or failed internal processes, people or systems or those of third parties such as those responsible for the custody of its assets, especially to the extent that it invests in developing countries.

**Geographical focus:** This fund invests primarily in Europe, which means that it is more sensitive to local economic, market, political or regulatory events in Europe, and will be more affected by these events than other funds that invest in a broader range of regions.

**Investment in company shares:** The fund invests in shares of companies, and the value of these shares can be negatively affected by changes in the company, its industry or the economy in which it operates.

**Sustainability:** The fund's integration of sustainability risks in the investment decision process may have the effect of excluding profitable investments from the investment universe of the fund and may also cause the fund to sell investments that will continue to perform well. A sustainability risk could materialise due to an environmental, social or governance event or condition which may impact the fund's investments and negatively affect the returns of the fund.

For further explanation on the risks associated with an investment in the fund, please refer to the section entitled "Risk Factors" in the base prospectus and "Primary Risks" in the fund supplement.

## Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

<b>Entry charge</b>	5.00%
<b>Exit charge</b>	none

*This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).*
